

# Megatrol Labs Oil Analysis with ReviewPro

The ReviewPro Service is a review of your onsite oil analysis lab results by a certified professional. ReviewPro adds additional assurance about the proper response to critical results. Expert advice is available within an hour, not days or weeks.\*

When you use ReviewPro, a ReviewPro Expert will call or email you with recommendations about your next course of action usually within an hour of your request.\* This can give you the edge on Proactive decisions to protect your equipment and profits.

## When to use ReviewPro?

If you are uncertain about the appropriate course of action after obtaining test results, ReviewPro is the answer.

If equipment downtime is a major concern, ReviewPro is the answer.

If you can't wait for days to have expert, human review, then ReviewPro is the answer.

### Benefits of The ReviewPro Second Opinion Solution:

- Quick, Qualified Next Step Recommendations
- Receive A Phone Call Or Email Within 1 Hour \*
- Maintenance Managers have extra assurance and piece of mind
- ReviewPro reduces equipment downtime

\* ReviewPro is available Monday thru Friday 7:00am to 5:30pm MST

## What does Oil Analysis Reveal?

- **WEAR METALS**— wear from pistons, rings, cylinders, bearings, gears and more.
- **SILICON**—time to check the PCV (Positive Crankcase Ventilation) filter, change the air filter, or check the sealant
- **OXIDATION**—correlates to sludge and varnish formation
- **COOLANT LEAKS**—major cause of engine failure
- **FUEL DILUTION**—reduces viscosity and ruins engines
- **VISCOSITY**—oil's ability to flow and lubricate moving parts
- **WATER**—condensation due to a cold running system or coolant leak
- **NITRATION**—(gasoline only) corrosive combustion by-product
- **SOOT**—(diesel only) by-product that impacts performance. An indicator of air to fuel ratio
- **TOTAL BASE NUMBER (TBN)** —oil alkaline reserve (additive) to neutralize combustion acid contaminants & oil life.
- **OVERALL**—Equipment Check oil analysis indicates the overall "health" of your vehicle
